SCIENCE

Q1. Activity – Take some fresh leaves of any plant like spinach, Radish or any other easily available leaf. Crush it with pestle mortar and make a paste of it. Filter it using muslin cloth or similar type of cloth and keep the filtrate. Take a filter paper strip/thick tissue paper of size 5 x 1 cm.

Using an earbud or dropper, make a mark on the strip from the filtrate. Apply it many times to concentrate the mark on the strip. Fill some nail polish remover in a glass where it remains below the mark. You can pick up the setting of apparatus ideas from the given link.
