

**National Astronomy Challenge (NAC)**

**Classes: IV-IX**

**SPS/783 /2025**

**12 December 2025**

Dear Parents

The National Astronomy Challenge (NAC) is an initiative aimed at sparking curiosity and strengthening scientific thinking in young learners through astronomy and space science. Over the years, NAC winners have visited prestigious institutions such as ISRO's National Remote Sensing Centre, ARIES Nainital, GMRT Pune, Boeing Corporation, and international observatories including the National University of Singapore and the Al Thuraya Observatory in Dubai.

Interested students are encouraged to register and appear for the NAC Olympiad, which serves as the selection stage for the annual awards. Winners of the Olympiad will be felicitated during the NAC Award Ceremony and Educational Expedition at the Udaipur Solar Observatory (Government of India)—a premier centre for solar studies. Selected students will also have the opportunity to interact with scientists and experts during the visit.

Registration Link: <https://www.nationalastronomy.org/student-registration/form?schoolid=xv9ogstyixpn9tf2ffvovpha>

Registration Fee: ₹354/

Learn more: <https://www.youtube.com/shorts/jQnVNV8awY4>

After registration, students will be provided online classes for the Olympiad, scheduled in the month of January, 2026.

We encourage our students to participate enthusiastically in this enriching academic opportunity.

Regards

Priyanka Barara  
Principal
