15.5.2026

Dear Parent

As part of our ongoing commitment to providing world-class educational opportunities to our students, we are proud to introduce **IIT TUTOR by SPRIX**, a leading Japanese education company, under our **Indo-Japan School Alliance Program**.

Sprix brings with it a legacy of academic excellence from Japan and is now offering its premier learning solutions in India. Their specialized programs cater to:

- **JEE and Other STEM Entrance Exam Preparation** – for **Grades 11 & 12**
- **Foundation & Board Exam Preparation Programme** – for **Grades 9 & 10**
- **Early Foundation Programme** – for **Grade 8 students moving to Grade 9**

What truly sets IIT TUTOR by SPRIX apart is their focus on **personal tutoring**, delivered exclusively by a team of **IITians**. These tutors not only bring deep subject knowledge but also share practical strategies, motivation, and their own experiences of clearing some of the most competitive exams in the country. This approach ensures that each student receives tailored guidance, builds confidence, and progresses at a pace best suited to their individual learning needs.

To help you and your child better understand the program, we are pleased to inform you that the **Sprix team, along with IITian tutors, will be present on campus during the PTM on 16th May, 2026**. We encourage you to interact with them, ask questions, and take advantage of the **exclusive academic counselling** and trial packs being offered. This is also a valuable opportunity for students to have informal conversations with the tutors and gain insight into their journey to the IITs.

You can also **explore what students have to say about their experience with Sprix here-> [IIT TUTOR; Student's Review - Dhilshan](#)** hearing firsthand how the program has helped them can offer meaningful perspective as you consider this opportunity for your child.

Additionally, students are welcome to register for **trial classes**, which offer a glimpse into the highly personalised and impactful learning environment that Sprix provides. To know more, please visit: <https://sprix.inc/en/> & <https://iit-tutor.in>

We look forward to your active participation and support in exploring this initiative, aimed at nurturing academic excellence and preparing our students for future success.

Regards

Priyanka Barara
